# Silicone Finishes

Product Selection Guide 2013-14

## Salient features

- Premium hand finish
- Micro and Macro
- Excellent Softness
- Higher Elasticity
- Exhaustible and Non Exhaustible
- Hydrophobic
- Hydrophilic with good hand feel, wet & dry
- Low Yellowing
- Cost efficient

## Product and Performance

Product	Performance	Hand	Type of Finish
Milaniaks-7070	Premium hand feel	....	Greasy
Milaniaks-2020	Multi-Purpose silicone softener	....	Bulky
Milaniaks-1010	Cost-effective and highly efficient	...	Greasy
Milaniaks-8885	Sweat-wicking moisture management	...	Natural
Milaniaks-2088	Hydrophilic with good softness	...	Natural
Milaniaks-8080	Concentrated, self emulsifying, hydrophilic and low yellowing	....	Natural, Silky
Milaniaks-2580	Natural finish	....	Silky and Bouncy
Milaniaks-4713 & Catalyst	Super-Soft, elastomeric and non-exhaustible	....	Super-Soft

Trinosuper-1313 & Catalyst	Super-Soft, highly elastomeric and Non-exhaustible	....	Super-Soft & elastomeric
Milansoft-8888 & Catalyst	Super-Soft with bounce, nonexhaustible	.....	Bounce & Super-Soft
Milaniaks-7892	Hydrophilic with excellent softness	....	Natural
Milaniaks-N500 & Catalyst	Premium finish with silky hand, non-exhaustible	....	Silky, soft

LCF-9600 Base	HD & matt finish	N.A.	Coating/Printing
LCF-9601 Base	Flat & semi shine finish	N.A.	Coating/Printing
LSR-9332 A & B	High wash fastness, especially recommended for denims	N.A.	Coating/Printing
DY-35 5088 A & B	Super gloss finish, suited for dome effect	N.A.	Coating/Printing
LCF-9618 Base	Gloss effect	N.A.	Coating/Printing
LSR-3600 Base	Fiber finish	N.A.	Coating/Printing
LSR-3631 Base	Footwear finish	N.A.	Coating/Printing
LCF9600/9601 Catalyst	Platinum based catalyst	N.A.	Coating/Printing
SL-9106 Reducer	Viscosity reducer	N.A.	Coating/Printing

LCF-9608 Inhibitor	Helps in increasing pot life	N.A.	Coating/Printing
--------------------	------------------------------	------	------------------

Product	Whiteness	Water absorbency	Durability	Crosslink able

\*All ratings are relative to each other: best = •••••; lowest = •

Milaniaks® finishes are available in wide range of chemistries as per need of the customers. Hydrophobic finishes are widely used in garment industries where as hydrophilic are used in towel industry and fabrics as well.

Different combination of selected polymers gives customized solutions.  
We provide complete technical solutions from fiber to garment.
